Audio Visual Panel (Basic Functions)

Waking up the Panel
If the Panel is dark, simply touch the screen to wake it up.

Turning on the Projector
Press the POWER button to turn on the projector. After a brief warm-up period, the projectors will turn on.
The lectern PC is the default display on the projectors.

Choosing the Display on the Projectors

Drag and drop a source onto desired display.
In this example the document camera has been dragged to the Secondary Display.

Computer: Displays the lectern computer screen.

Laptop VGA: Displays laptop screen plugged in with the supplied VGA cable.

Apple TV: Allows you to present wirelessly from your apple device.

Laptop HDMI: Displays laptop screen plugged in with the supplied HDMI cable.

Document Camera: Displays the document camera.

These are the Primary and Secondary Displays.

These are the sources.

Wireless Presenter: Allows you to present wirelessly by connecting your portable device to the projector.

Turning off the Projector
Press the Shutdown button on top right of the Panel.
Press Shutdown to turn off the projector.

See instructions for advanced functions over the page.

For support from CITS Audio Visual Services, call 9266 9000. Press “1” for AV Support.
Audio Visual Panel (Advanced Functions)

Controlling Volume:
Tap the Volume icon to show the volume levels of the Lapel Mic and Source Volume. Adjust these by dragging the volume slider up or down.
Tap the Volume icon again to hide.

Monitoring Your iLecture:
The iLecture status is shown at the bottom left of the panel. You can choose to Pause, Resume, or Extend your recording by selecting each of the buttons.

Alternatively, check the colour of the iLecture status light, which displays red when recording.
Or double-click on the Monitor My iLecture icon on the computer desktop.

Displaying Pod Computers (if available)
Some rooms are fitted with a feature which allows screen sharing of pod computers. In this case, the AV Panel will look like this:

Drag the selected pod computer here to display on the Main Projector Screen.

Drag the selected pod computer here to display on all other pod computers only.

For more detailed instructions go to the Audio Visual Services section on the CITS website: cits.curtin.edu.au.
