VuePoint-Connect (Basic Functions)

### Getting Started

The VuePoint tab should automatically show at the top of the computer screen when you login. Hover your mouse over the tab to display options.

The teacher screen is the default image shown on the projector(s).

### Displaying the Teacher Screen to All Pod Computers

1. Ensure all pod computers are turned on.
2. Press the Teacher icon. Your screen will show on all pod computers.
3. Press the Teacher icon again to stop sharing.

*Note:* Students cannot take control of the teacher’s screen.

### Displaying a Student Screen on the Projector(s):

1. Select the Student icon.
2. Select the pod computer you wish to display e.g. Group 8.
   
   This group will now show on the teacher screen and the projectors, and the teacher will be able to control the student screen.
   
   3. (Optional) Select Send to All.
   
   This group’s screen will now show on all pod computers.
   
   4. Press the ‘X’ to exit the student’s screen.

### Temporarily Locking the Pod Computers:

1. Select the Lock icon.
2. The pod computer screens will be temporarily locked as required.
3. Deselect the Lock icon to allow students to use their computers again.

VuePoint-Connect (Advanced Functions)

The **Tools** icon opens up a new panel of options to choose from.

**Storm**: Creates a brainstorming session between all linked computers, which can be saved and reopened to work on later.

**YouTube**: Allows the teacher to search for YouTube videos and drag and drop them onto individual groups.

**Poll**: The teacher can create and save multiple choice polls, and the students’ responses.

**Planner**: Allows the teacher to queue regularly used files and media. These can be located and launched quickly without searching for them during the lesson.

**Chat**: Allows chat between students and teachers, and between students. The teacher is able to view all chat sessions to supervise.

**Identify**: Briefly flashes the group number of all pod computers on their screens to identify them.

For support from CITS Audio Visual Services, call 9266 9000. Press “1” for AV Support.
