Wireless Presentation

The wireless presentation system in this venue allows you to display the screen of your computer onto the main projection surfaces using Curtin’s wireless network. There is no need to connect your computer to the AV system with a cable.

AV Control Panel

Once the room has been turned on using the AV Control Panel, select the Wireless Presenter tab as highlighted above. A default background image as below will appear on the main projection surface.

Client Installation

Lectern and Venue Computers: No installation steps required.

Your Laptop Computer: Install wireless client following Steps 1 & 2 shown on default background image.

Your iPad: Install ConnectMe application from iTunes. Follow Step 2 on shown on default background image.

Login

1. Click on the ‘ConnectMe’ software.
2. Login using either ‘staff’ (password = ‘connectme’) on the lectern computer or ‘student’ (password = ‘student123’) on other computers/laptops.

Modes of use

Peer Mode — all participants are logged in as ‘student’. Anyone can immediately display their screen onto the projector.

Teacher Mode — one person is logged in as ‘staff’ on the lectern computer with everyone else logged in as ‘student’. Access to the projector is controlled from the lectern computer.

For support by CITS Audio Visual Services, call 9266 9000 (or extension 9000). Press “1”.
**Peer Mode**

1. Select ‘Display Me’ to start displaying your screen on the projector.
2. Use the ‘Pause’ button to freeze/resume the display and the ‘Stop’ button to stop the projection.

**Teacher Mode**

Using the participant list, staff are able to display another computer on the projector and/or allow any requests from other computers to be displayed.

**Participant List**

1. Select ‘Participate List’ to display a list of other computers available for display.
2. If logged in as staff, select a participant and ‘Allow’ their screen to be projected.
3. To display just one screen, select ‘Full Screen’, otherwise select split screen (up to 4) to display multiple users on the projector.
4. If a student makes a request, the lectern computer will receive an alert (see below) to allow the screen to be displayed.

**Sharing Screens**

At the bottom of the participant list, there is a button to share your computer’s screen with other participants. This can be done by selecting which participants to share it with and clicking ‘Share My Screen’. Your screen then appears on their computer as a separate window.

For support by CITS Audio Visual Services, call 9266 9000 (or extension 9000). Press “1”.
